## DRAMATIC PLAY AT BAY HIGH SCHOOL TONIGHT, FRIDAY, 12

### "Spring Fever" Three Act Farce to Be Presented.

The first major production of the Bay High Dramatic Club will be given on Friday, April 12th, at 8:00 P. M. with the presentation of Glenn Hughes' farce in three acts, "Spring Fever."

The recently organized Dramatic Club has thrown all its resources and efforts into the play and assures an evening of spontaneous laughter and enjoyment to those attending.

"Spring Fever" is the story of commencement days at Brookfield College with all the complications and confusion which may arise therefrom. The setting is a rooming house, the landlady of which can never quite keep up with her boarders.

When a chemistry student turns his room into a laboratory where he experiments with a substitute for dynamite, an art student kidnaps a rich manufacturer for a model, a senior types frantically on a term paper for Zoology; a journalism student dashes in every so often to use the typewriter; all this with parents, aunts, and sweethearts popping in and out—mostly in.

The dialogue is delightfully witty and the plot is fast and furious.

The characters are as follows: Howard Brent, Mark Solomon; Ed Burns, Eliot Coward; Vic Lewis, Kenneth Bourgeois; Mrs. Spangler, Martha Chapman; Ann Purcell, Lillian Olson; Vivian George, Rita Benigno; Henry Purcell, Steele Ansley; Phoebe Purcell, Janice Garcia; Maud Corey, Mary Kittrell; Professor Virgil Bean, Billy Osbourne; Dr. Dixon, Jack Baxter and Lou Herrow, Lucy Weston.

The performance will start at 8 o'clock promptly. Admission will be children 15c adults 25c.

## DISTRICT BOY SCOUT MEETING

### Last Friday, With Mr. S. T. Kennedy, New District Field Executive.

A meeting of the local district committee of boy scouting was held last Friday night at Manieri's Cafe, April 5.

Father A. J. Gmelch, district chairman, presided, with Mr. S. T. Kennedy, newly appointed field executive of New Orleans, in attendance.

Other members attending included E. Adlai Lang and Frank Wittman of Pass Christian; Robert Camors, Chas. Kergosien, Arthur Scafide, Al Arnold, Henry Ososnach, and L. S. Elliott.

It was decided to hold the regular monthly meeting on the first Friday of each month at 7:00 P. M. The same officers were re-elected for the present.

Plans are under way for a scout parade to be held in the near future inaugurating a drive for funds for the Scout Movement. Robert Camors, Arthur Scafide and L. S. Elliott were named as a committee to make arrangements for the parade. Both scout troops, girls scouts, seascouts and other units will make up the parade, as well as officials of both the city and county.

Scouting in Bay St. Louis will be more active than ever before, it was stated. Scout masters and members of the troops are working in earnest and officials are planning much activity.

America's future lies in its youth—Why Scouting? Scouting builds character. It is better to build boys than mend men. Scouting makes leisure productive—a large percentage of crime is committed by youths with too much leisure and "nothing else to do."

What we do when we do not have to do it is a real test of character. Wisely directed activity is the heart of the scout program.

Scouting combats delinquency—scouting does more than prevent boys from becoming liabilities to society; it develops them into assets of society.

Parents—help your boys to become scouts—you can also assist the cause by joining with other men of the community for the purpose of advancing scouting in Bay St. Louis.

Already preparations are well under way for the gala day to be held in Pearlington on Saturday, May 4th. The band of Holy Cross College of New Orleans will be back to serenade during the afternoon and to play a concert the evening of the day.

Father Victor is exceptionally happy that his good friend, Hagli, the Maharajah with psychic powers, has finally arrived in this country and will be present in Pearlington to entertain the crowds during the evening. The Maharajah has promised to bring as many of his troupes as it is physically possible, so that he may present an elaborate show. Many new games and beautiful prizes will be on hand to insure an enjoyable evening for all.

Father Victor is distressed that he has been unable to help the victims of the tornado which struck Napoleon last Sunday and demolished three structures; two houses and a large barn. He has decided that one-quarter of the proceeds of this party will be given to the good people to assist them in the restoration of their homes.

## MRS. O'BRIEN'S RARE ROSE BUSH.

The garden of Mrs. W. T. O'Brien, corner Second and State streets, is always interesting for there are not only many flowering plants but also for the reason there is always something of unusual interest and flowers are in blossom.

Just now Mrs. O'Brien has a rose bush blossoming that is not only outstanding for beauty of the roses but is also interesting due to the fact the bush carries roses of two distinct colors. On some branches are roses of deep red and of pink, both of definitely different colors.

The original bush was planted by Mrs. O'Brien's father thirty years ago and is thus doubly prized. It is both a subject of unusual interest and unparalleled beauty.

## KING AND QUEEN SELECTED FOR BAY. HIGH MAY FESTIVAL

### Rita Benigno, Queen; Mark Solomon and Theodore Thomas in Second Primary.

After a spirited first primary in which all high school students voted, Rita Benigno was elected queen by a majority, while Mark Solomon and Theodore Thomas, candidates for king, moved into the second primary in the election for queen and king of the annual Bay High May Festival, to be held in Bay High auditorium, May 3, at 8 P. M.

Rita Benigno popular senior, has, during her high school years, been very active. Those activities during which she qualified as a candidate were numerous. Rita is News Editor of the Students Prints; Editor of the Sportsflash; Literary Editor of the annual; member of the debating and Current Events Clubs, member of Quill & Scroll, and member of the Senior Class basketball team.

The two second-primary candidates for king have also taken an active part in the school program. Those candidates running in the first primary were: for king, Billy Osbourne, Jack Baxter, Kenneth Bourgeois, Eliot Coward, John Ruth-erford, Mark Solomon, and Theodore Thomas; for queen, Rita Benigno, Eloise Brown, Mary Carr, Janice Garcia, Mary Maurig, Gertrude Monti, Rena Nelson, Lillian Olson, Corinne Strong and Evelyn Turcotte. These students were selected as candidates on the basis of requirements for such as set forth by the student activity association in the recently published "B" Book.

The War Department will, thru the Third Army and the cooperation of The American Legion establish and operate an Aircraft Warning Service in the States of Alabama, Mississippi, Louisiana, the southwestern part of Arkansas, and the western part of Florida during the period of May 7-11, 1940, in connection with the Third Army Maneuvers.

This Aircraft Warning Service will be organized and trained by The American Legion through its State Department and District Commanders. They will select a county chief for each county or parish in their state or district. Each county or parish chief in turn will select his assistants and four or more observers for each observer station located in his county. Normally there will be from one to four observer stations in each sixteen-mile square throughout the entire area.

Henry Capedon, local Legionnaire, was appointed County Chief for this maneuver. He states that four observation posts will be designated thru the county. The three fire towers will cover the outside section and one Post will be located at some advantageous point in Bay St. Louis. Mr. Capedon will appoint a local committee to assist him in carrying out this work. He will seek aid through the local Boy Scouts and sea Scouts and the civic organizations.

The Third Army Aircraft Warning Service will be operated entirely by patriotic civilians under the leadership of the American Legion except for an Information Center, which will be operated by regular army personnel of the Third Army assigned to the Aircraft Warning Service. This information Center will receive, by telephone, messages from the official observers of the movements of all military airplanes seen or heard flying in formation. The regular army personnel at the information center will evaluate and, then by radio, teletype, and telephone disseminate this information for use by military personnel.

There will be over 1000 observer stations and approximately 9000 volunteer civilian observers. The 1940 Third Army Aircraft Warning Service will be the most extensive one to be organized in the history of the United States.

## CONSISTENCY (?)

THE Vicksburg Herald calls attention to another rank inconsistency of the state government and its legislature now in session. It says that the Johnson administration leaders say that the action of a "blocking bloc" in forcing reduction of the ad valorem tax rate in the revenue program from eight mills to six, is a defeat for those of our citizens least able to bear it.

Since the legislature only a few weeks back enacted a law deferring land tax sales in the interest of overburdened tax payers, it certainly is inconsistent to claim that defeat of the proposal to increase the ad valorem tax from six to eight mills is a "defeat for those who are least able to bear it."

## LET US STREAMLINE EDUCATION METHODS.

PRESIDENT Stringer told the Mississippi Educational Association at Biloxi in annual convention last week that "Our System of education needs to be streamlined; that we should eliminate a lot of useless material in order that we may go ahead with greater speed and less power consumption." His suggestion is both sound and timely and has met with the general approval of the press over the state and general authorities. "Our education is like a bushy tree," says the Vicksburg Post. It could be trimmed of a lot of useless limbs with profit to the tree in sturdier growth.

## FOR A "CHRISTIAN PEACE"

THE newspapers are being bombarded by letters from well-wishing individuals who want the government to take the lead in establishing a Christian peace.

This is a fine suggestion. It is easily accepted in principle. How the United States could go about establishing a Christian peace between Japan and China, much less Germany and Great Britain, escapes us.

These letter writers should go into more detail. They need not tell the government of this country what it should do. They ought to tell Hitler and the Emperor of Japan what they should do. If they can get results the world will hail them and their work.

## FOR INFORMATION OF THE PEOPLE.

MISSISSIPPI House Bill No. 880, introduced on Apr. 5, provides that the entire land roll of the county after approval, shall be published by the Board of Supervisors in a newspaper in the county. The publication must show every column and entry in the same manner and as fully as the assessment roll. Any willful disregard by any board in not having the publication made shall subject the Board to a penalty of \$100.00 and actual damages.

## RECKONING WITHOUT THE HOST.

POST Master General James A. Farley visited several points in Mississippi during the week in official capacity while en route to Meridian. He was accompanied by Congressman Ross Collins. Added significance was given to the prominence of the visitor due to the thought he might possibly be the Democratic presidential nominee. Very possible however but not probable—with President Roosevelt, though silent, in the offing.

## NO FATALITY IN A YEAR.

COMMERCIAL airlines in the United States in the year ending March 26th, did not have a fatal accident or serious injury to passengers or crew members.

In view of the great increase in aerial travel, this is encouraging. In time, maybe, people will forget that flying was once considered dangerous.

Careful driving doesn't always avoid an accident but it helps.

Reading books is not always a short cut to culture; it depends upon what you read.

Most people are hunting excuses for postponing work; that's why they have to hunt excuses for not having cash when they need it.

A proposed sales tax on newspapers and magazines in Mississippi was justly killed. This masterpiece of assinnity is characteristic of the legislature.

The "Jackson tax boys" of the legislature, says the McComb Daily Enterprise, have overlooked taxing pilgrimages and other fiestas, tours, etc.

April is an excellent month for renewing subscriptions to The Echo; avoid heat prostration this summer by eliminating all worry over whether this journal of news and opinion will continue to come to your mail box.

A bill has passed the House to have the names of the counties of issuance imprinted on State automobile license tags hereafter. It now needs the O. K. of the Senate and the governor's signature. Its passage is assured, reports say. It will prove both a matter of identity and advertising for the different counties. It should cost no more.

## TYPICAL SMALL CITY FOR COMMUNITY LIFE.

WE challenge any city the size of Bay St. Louis for a more and better organization for living.

Long accepted as the ideal place of residence, with its climate and wealth of native resources contributing to health and happiness, it is no wonder people seek and would rather live here than elsewhere.

As a residential community it is ideal. Its schools are many and cover a wide phase for education and general culture. Its churches are many and active and mean for a more abundant life in the spiritual and general sense. There is no limit to the spirituality of the soul of being. Every contributing factor for betterment is active and found here aggregating to that wide number that a great degree of benefit and security is covered. Its charitable contribution to the community is well organized and thoroughly functioning.

The hospital, too, covers a wide range of benevolence and alleviation to the suffering that is daily functioning, day and night, regardless of finances. None deserving is turned away. Thanks to the King's Daughters, the county, city and other contributing influences. The every day life, its society of men and women, people born of the spirit of Godliness, conscious of a great brotherly love, bonded in union for the general good, and sympathetic in every phase of the human being, are qualities of empowering love that in the last analysis make for the greatest of all communities that we are wont, and, with a lasting affection, call home and our people. That is Bay St. Louis, its men, women and children.

The Sea Coast Echo has long ago found our people responsive to every impulse for good of the community and to every emotion contributing to the spirit for a better life.

## GOVERNMENT SHOULD NOT SUPPORT THE PEOPLE.

EDITOR Sullens of the Jackson Daily News hits the nail squarely on the head when he said this: "Let's be perfectly frank about it. The one and only solution of Mississippi's financial problem is for her people to quit expecting and demanding too much." He could not have said more in a column. We would make further suggestion and say that our national problems cannot be solved unless the people quit expecting and demanding too much. The theory that the government should support the people is contrary to the principle which made America the envy of the world through its amazing growth. The people should support the government, for the people are the government and every dollar the government gets comes from the wealth the people have created and must continue to create if our republican form of government is to survive.—Vicksburg Post.

## OF DOUBLE VALUE TO THE HOME FOLK.

THE second Natchez Pilgrimage for this year came to an end last week-end—proving a success without precedent. Every community seems to have had its fiesta, festival, pilgrimage, pageant, tour and whatnot, affording educational recreation and pouring many dollars into new channels and making for more value for the dollar thus expended. The visitor, in every instance, has truly received full value for his dollar plus. And people residing in the respective communities putting on these affairs have gained knowledge immensely which otherwise would not have come to their notice. Thus affairs prove of interest and double value.

## THE HOLLYWOOD FEVER.

IF any of our readers, male or female, have a yen for going to Hollywood to seek their fortunes before the cameras that grind out motion pictures for the 17,003 theaters in the United States, let us remind them:

That although the annual Hollywood payroll is estimated at around \$130,000,000 the average annual earnings of the "extras" is only \$317.26 a year.

It should be understood that this figure is what those who found work received. It does not take into account the thousands who sought employment in vain.

## WHAT IS THE MATTER?

WHAT is the matter with the country? Hardly two people in the nation agree on the answer.

This is not surprising because the explanation of present problems does not lie in any particular indictment. There are many causes.

In fact, there is probably nobody who knows the complete answer. Efforts to understand our economic machinery are hindered by various factors, including self-interest.

About the best thing that the average individual can do, if this question has presented itself to his mind, is to forget about the nation, for the moment and ask, "What's the matter with me?"

If the inquiry is pursued relentlessly and with diligence there is bound to be results.

## "COW JUICE"

"DRINK more milk" is sound dietary advice. This is a country with an unequalled standard of living—but milk consumption by adults as well as children, is far below the level health experts believe advisable.

Various health organizations are working to stimulate milk consumption. And, on top of that, excellent work is being done by the milk marketing cooperatives. These co-ops emphasize the value of milk—and they assure the consumer of a sanitary disease-free, high quality product. During the past few years, with the help of progressive farmers, immense progress has been made in the technique of milk production and handling.

More "cow juice" would mean better health for ninety-nine people out of a hundred.

Nations, like people, must be ready to assert and maintain their rights if they expect them to be respected.

## FIRE FIGHTERS IN HANCOCK COUNTY ACTIVE IN MARCH

Mississippi Forestry Division Active—Hancock Received \$1134 for Services.

417 fire fighters in fifteen Mississippi counties cooperating with the Mississippi Forestry Commission received checks for personal services in the amount of \$14,193.06 for their forest fire suppression work during March, 1940. In addition, \$469.23 was spent for materials and supplies in these counties, making a grand total of \$14,662.44, according to J. B. Bishop, business manager for the Commission.

Of the total, Hancock county used 33 fire fighters who received \$1134.25 for their services and expended \$10.23 for materials and supplies.

Records in the Jackson office show that March is usually the worst month of the year for forest fires in Mississippi and consequently that the Commission plans its budgets to have the greatest number of fire fighters available at this time. Commenting on the situation, Mr. Bishop says debris burners, and cattlemen were responsible for the most fires this month. Just why people in cleaning up for spring plowing will set fire to turn rows and let it burn valuable timber is beyond understanding; and why owners of large tracts of land stand for the owner of a few cows to burn thousands of acres of valuable forest land, destroying young growth many times the value of the cattle, is something else we do not understand. Fires not only destroy young timber but retard growth of that not killed outright. The more fires there are, the more expensive it is to maintain the organization. In other words, the more fires, the more costs to the taxpayers.

## Boys Returned to Homes In New Orleans After Being Apprehended

Two New Orleans high school boys were apprehended at the highway bridge by Constable Gerald Price on last Friday night about seven o'clock.

Both boys were riding bicycles and gave their names as Joseph Lopez, 801 Louisiana Avenue and Frank Beaugez, 2524 St. Thomas street, New Orleans, and each was fourteen years.

The boys claimed to have left their homes early the same morning and claimed they did not wish to continue school "as they did not like Latin." Sheriff Horace L. Kergosien took charge of the boys and notified their parents who came over and took the boys back to their respective homes within the next day or two.

## NEW CAGNEY FILM, "FIGHTING 69TH" COMING TO A. & G.

Sunday and Monday April 14-15—Cast Includes Many Others.

James Cagney's newest starring picture, "The Fighting 69th," will be at the A. & G. Theater, Sunday and Monday where it will begin its local engagement on Sunday. In "The Fighting 69th" he shares starring honors with Pat O'Brien and George Brent with a featured cast including Jeffrey Lynn, Alan Hale, Frank McHugh and dozens of others.

Cagney's name on the star list usually guarantees a good rousing action story, and "The Fighting 69th" is no exception. Cagney is a cocky young buck private in the famed New York regiment and his career in the military training camp is one long series of clashes with authority, as he tries to buck the whole code of military discipline. The burly top sergeant, played by Alan Hale, is his natural enemy, and the encounters between the two of them are in the rough and tumble tradition of "The Cock-Eyed Wonder."

United in their attempts to reform the young private are Father Duff, beloved chaplain of the "Shamrock Regiment," played by Pat O'Brien, and "Wild Bill" Donovan the colonel, played by George Brent. Both these latter characters are factual, while the roles played by Cagney and Hale are fictional although they undoubtedly had their prototypes in many regiments. Besides those mentioned, the cast also includes Dick Foran, Dennis Morgan, Tom Kennedy, Wm. Lundigan and Henry O'Neill. Based on the screen play by Norman Rellly Raine, Fred Niblo, Jr., and Dean Franklin, the film was directed by William Keighley.
